

Benefits of a Catholic Education

Learn More. Beyond teaching Science, Technology, and many other advanced and core courses, our gifted teachers also lead meaningful and open classroom discussions about faith, morality and Catholic spirituality, providing your child with an early opportunity to explore things about the world and themselves not found in secular textbooks and mandated lesson plans.

Be Treated as an Individual. Since many of our schools begin in pre-kindergarten and progress through 8th grade, our teachers and staff are uniquely positioned to proactively assess, refine, and enhance your child's individual development day-after-day and year-after-year for as many as eleven consecutive years, leading to an unparalleled understanding of your child and their unique needs.

Make the Right Choices. While our teachers and staff work very hard to prepare your child to excel academically, they are equally focused on instilling Catholic values into their young hearts and minds so that when faced with a difficult decision outside the classroom, your child has the character to make the right choice, based on the teachings of Christ, no matter what their friends or anyone else might say.

Change the World. Our schools empower your child with the knowledge, self-confidence, and moral compass to become leaders in high school and beyond, changing and bettering their communities and their world one idea, one person, and one conversation at a time.

Study with Great Teachers. Expert, passionate, and selfless, our teachers personally invest themselves in the success of your child, seeing them as not just another student, but rather as someone's beloved son or daughter who is deserving of all the individual attention, undivided love, and thoughtful encouragement necessary to reach their full, God-given potential.

Discover Your Talents. Whether you believe your child to be the next Lincoln or Sandberg, Fermi, or DuSable, Butkus, or Banks, Bernardin or Cabrini, our schools offer a growing and diverse collection of clubs, sports and activities to suit nearly any budding interest or blossoming young passion, making it possible for your child to safely discover their talents, and maybe even surprise themselves-and you-in the process.

Achieve Ahead of Your Peers. Methodically prepared by their teachers and lovingly supported by mothers, fathers, and family members who saw Catholic education as a sensible investment in their future, our former students consistently achieve ahead of their peers in the high schools and colleges of their choice, with many earning valuable scholarships worth tens of thousands of dollars.

Belong to Something Bigger. As your child learns more, builds character, changes the world, and discovers their talents, they will also begin to find new meaning in life through the structured beliefs and moral foundation of the Catholic Church, and to understand that they now belong to something bigger-and infinitely higher-than themselves.

Find Unity in the Core Values in a Catholic Education. Our Catholic core values unite us, from the office to the farthest corners of the playground. In the labs, on the playing field, in the lunch line, and in the classroom, this is who we are and why we are here.

Incorporating Faith Into the Classroom. Our schools incorporate Catholic spirituality into every aspect of the curriculum, reinforcing to students that their personal faith, centered on the Eucharist and the sacraments, remains relevant regardless of the course they might be studying or the situation in which they might find themselves.

Balance Challenging Courses with a Nurturing Environment. Our caring teachers balance high expectations for each boy or girl with a genuine respect and love for that student, recognizing always that each child is unique and therefore ever-deserving of individualized attention and one-on-one focus.

Collaborate with Families. Understanding that many parents work, and some may even work multiple jobs, our teachers and school leadership do their best to maintain proactive, candid, and open communication with each student's family, because learning doesn't stop at the edge of the schoolyard, nor is it where it begins.

Hold Each Other to a Higher Standard. Inspired by the Gospel, our teachers, staff, and school leadership hold one another to a higher standard of professionalism, morals, and ethics both in and out of the classroom, believing one of our primary roles is to provide an example for our school communities of faithful Christian witness.

Look Ahead. As tomorrow's innovations promise to leapfrog today's technologies, our local school leaders are continually looking ahead to ensure their schools' learning resources, teaching approaches, and classroom tools stay abreast of new ideas and best practices as they plan for the long-term success that will benefit students and teachers alike.
